Parfait Kamugisha

Parfait Kamugisha

Portfolio-management and quantitative-research professional and CFA charterholder, currently Senior Analyst in the Investment Division at Rwanda's largest institutional investor. M.Sc. in Financial Engineering with hands-on experience across asset allocation, valuation and DCF modelling, equity analysis, and macroeconomic research.

Education

Worldquant University New Orleans, United States of America

M.Sc. in Financial Engineering, 2021

In this rigorous master's program that lasted 2 years we covered:

- **Financial Markets:** this was an introductory course that exposed me to the financial world which helped me to understand the concept of the stock market and fixed income market.
- **Econometrics:** I was familiar with econometrics in the context of economics. this gave me an opportunity to apply my knowledge in a financial setting.
- **Stochastic Processes:** this proved to be quite demanding, however it was an important subject to cover which helped me understand copulas and markov processes.
- **Computational Finance**
- **Portfolio Theory and Asset Pricing**
- **Machine Learning in Finance**
- **Case Studies in Risk Management**
- **Data Feeds and Technology:** I was introduced to smart contracts and Blockchain technology.
- **Capstone Project:** For this project, I worked on forecasting WTI CRUDE OIL prices using XGBOOST.

University of Rwanda

Experience

Rwanda Social Security Board (RSSB) Kigali, Rwanda

Senior Analyst,
Portfolio Management

Apr 2025 - Present

- Support portfolio construction and strategic asset allocation across asset classes within the Investment Division, Asset Management Department.
- Conduct investment research, valuation, and performance and risk monitoring to inform portfolio decisions.
- Prepare investment analyses and reporting for internal investment governance.

Gwiza Alpha Ltd

Kigali, Rwanda

Co-Founder & Portfolio Manager Jun 2021 - Present

- Build discounted-cash-flow (DCF) models from revenue and cost forecasts to value listed companies.
- Analyse financial statements to screen for reporting red flags and quality-of-earnings issues.
- Run equity selection on the local market using multiple strategies, supported by country-level macroeconomic analysis.

Innovation for Poverty Actions (IPA)

Kigali, Rwanda

Research Associate

May 2023 - Mar 2025

- Led the independent measurement workstream for the STARS education program, managing a team of field managers and all data operations.
- Owned the data pipeline in R and STATA (high-frequency checks, cleaning, stakeholder dashboards) through to analysis-ready datasets.
- Co-authored analysis reports for donors and government stakeholders including the Ministry of Education; collaborated with Georgetown University (GUI²DE) on research design.

Vanguard Economics Ltd

Kigali, Rwanda

Quantitative Research Associate May 2022 - May 2023

- Working on Volcano National Park expansion project, where I am tasked with conducting the cost benefit analysis (CBA) to capture financial and economic profits of implementing the interventions proposed.
- Running the secondary data analysis on Rwanda Finance Limited (RFL) skills survey project where my role involves collecting secondary data mainly from the National Institute of Statistics of Rwanda (NISR), Kigali International Financial Center (KIFC) and National Bank of Rwanda (BNR); analyzing the data in the context of the project and writing a report on the findings.
